THANK YOU TO THE NOMEL TEAM AND ALL LEGACY MEMBERS THAT WORKED, BELIEVED, REFLECTED, AND STAYED STRONG DURING DOWN TIMES. SPECIAL THANK YOU TO JUDI, GEORGE B. OMZEL SUPREME, HANAAN MAN, CESAAR, SOADRUS, RESTING SPINE, MOONLIX, SHOGUN, TANA BANANA, AND BELOVED OTHERS WHO HAVE BEEN EXTREMELY PATIENT WITH THIS NON-SENSE...

THANK YOU!

★ CRONICA LEMONADA ★

The unearthed legacy

In the depths of a clandestine laboratory, an enigmatic apparatus emerged, its origins shrouded in secrecy. comprising an intricate amalgamation of unknown materials and esoteric symbols, this mysterious device held the power to unearth a hidden dimension, a parallel reality obscured from the prying eyes of humanity. Its cryptic mechanisms, driven by an otherworldly energy source, yielded a portal to a realm both hauntingly reminiscent of our own and tantalizingly divergent, where the laws of reality undulated to an obscure cosmic symphony. As the veil between worlds parted, it whispered of uncharted realms and unfathomable secrets, evoking a bittersweet nostalgia for the echoes of our past, as if it were a mirror reflecting forgotten remembrances, beckoning intrepid souls to venture forth and unravel the enigma that lay beyond.

Through its unfathomable mechanisms, fueled by an ethereal energy source, it summoned a sprawling cinematic universe (the Lemaverse) that defied the constraints of mere imagination. Here, beloved comic book heroes leapt from their inked pages, assuming tangible form, while cherished video game realms manifested before your very eyes, their immersive landscapes ripe for exploration. The dusty tomes of forgotten books murmured long-lost narratives, and characters from literature breathed life anew. As the portal to this extraordinary realm shimmered to life, it beckoned with an irresistible allure—a cosmos where storytelling and reality became one, inviting all daring souls to traverse its threshold and partake in the boundless tapestry of creative possibility.

In the annals of this history, there exists a legend of timeless tales, a treasure trove of comics, video games, books, movies, action figures, and toys that have mysteriously vanished, yet live on in the collective memory of humanity. These lost creations, whispered about in hushed tones, are a testament to the enduring power of art and play. The comics bore protagonists whose adventures ignited the imagination, the video games offered worlds of wonder and challenge, the books unfolded narratives so profound they etched themselves into the soul, and the films unfolded before audiences like vivid dreams. The action figures and toys, with their intricate details and boundless potential for play, brought these cherished stories to life in the hands of avid collectors and wide-eyed children alike. Though their physical forms have slipped into the shadows of history, the indelible impact of these lost masterpieces continues to shape the cultural consciousness, passed down through generations as cherished relics of a bygone era, forever etching their names into the tapestry of our shared nostalgia.

Here we are jumping forward into the past while indulging in the non-existent nostalgia associated with it. Dive deep into your emotional remembrance.

LEMAN LEGACY

Leman Legacy emerges from the depths of the chronica lemonada, an intricate tapestry woven from the strands of diverse media—video games, comics, movies, action figures, and a trading card game. This expansive collection thrived in a parallel universe, a world hidden from our view, where it enjoyed unprecedented success from 1978 to 2013.

Unseen by our eyes and unheard by our ears, yet remembered through our soul, this enigmatic collection thrived in the shadows, silently weaving its spell from 1978 to 2013 in a parallel universe, far removed from our own. In that realm, it flourished beyond the confines of our reality, leaving behind only faint traces of its mystical existence. What secrets lie concealed within the enigmatic annals of the Leman Legacy, and what mysterious forces did it harness in its unseen domain? This tantalizing narrative endures, an invitation to explore the wonders of a distant universe, beckoning to those willing to step beyond the veil of the ordinary.

launched in 2021, project nomel is a hive mind team working together to unearth contents of the leman legacy universe (Lemaverse). led by space h. wilson, the team members come from different backgrounds and disciplines.

our primary mission is to bring forth the leman legacy universe as originally depicted in the chronica lemonada. we embrace the culture of collaboration, as we bring forth this universe we must be true to each piece of media produced to reflect the essence of the original works.

POWERING THE ECONOMY

NOMEL TOKEN

The nomel token is a crypto utility token that currently exists in the smart chain network (BEP-20). The token is the heart that powers the Leman Legacy "Lemaverse" and brings it to life. Users can purchase nomel token to interact with the Leman Legacy universe (games, art, collectables, etc..).

The nomel token has 10 billion tokens in circulation, with 80% locked for public- in which will be divided into two networks: 4 billion in BEP-20, and 4 billion in ERC-20 networks (coming soon). The remaining 20% will be distributed as 10% reward center, 10% founder & team.

TOKEN: NOMEL TOKEN

SYMBOL: NML

TOTAL SUPPLY: 10 BILLION NML

CONTRACT ADDRESS:

0x5b6a52088e99028De110F46e6065991756381928

ENJOY TO EARN

enjoy the experience - earn from the enjoyment

enjoy & earn:

"enjoy to earn" is a methodology where players will be rewarded nomel tokens by unlocking diverse and challenging in-game achievements. enjoy to earn primarily focuses on gameplay story, as well as technology, all with integration with traditional game marketplaces.

enjoy to earn is a revolutionary model developed by project nomel, strictly for die-hard gamers out there; to be rewarded upon completing in-game achievements - we would like to change the achievement eco system currently existing in the gaming world- we intend to ultimately infuse our games with block chain technology. Its about time to reward players who have invested time and money in games.

The thought process behind all of this; "play to earn" us "play to enjoy" - we have always "grinded" games for that one achievement, weapon, gear, high score, etc with extra high levels of enjoyment and personal fulfillment once completed. thus we have created our own beta formula using our blockchain technology- = "ENJOY TO EARN".

achievements:

rewards players upon completing in game achievements. The difficult the achievement; the more \$nml received! achievement rarity plays a huge role, so "first come first serve", a number of achievements will be added to each Leman Legacy category game title; in which users can compete to complete first. the achievements will be based on a monetary value as well as in game experience.

as for achievements every game title has its own achievements, an indicator that a person is enjoying the game and completing achievements. each achievement category would consist of medium, hard and easy achievements to complete. each category will be assigned to an amount of \$nml. however, this is first come first serve which means in other words that achievements will first launch with a specific number of nomel token attached to it; the first to unlock the achievement will receive 25% of achievement total the second to unlock the achievement will receive 15% of the total achievement number of the third will receive 10% total and each achievement will deduct or keep deducting deducting the amounts unlocked by players to reach a fraction of the total that the achievement launched win to ensure that something is still giving.

achievement compiler:

achievement compilers reward players extra nml upon completing achievement levels. achievement compiler = percentage of achievements completed from total achievements of a specific game title in the Lemaverse.

compiler tracker will have five primary levels starting from

-10% -

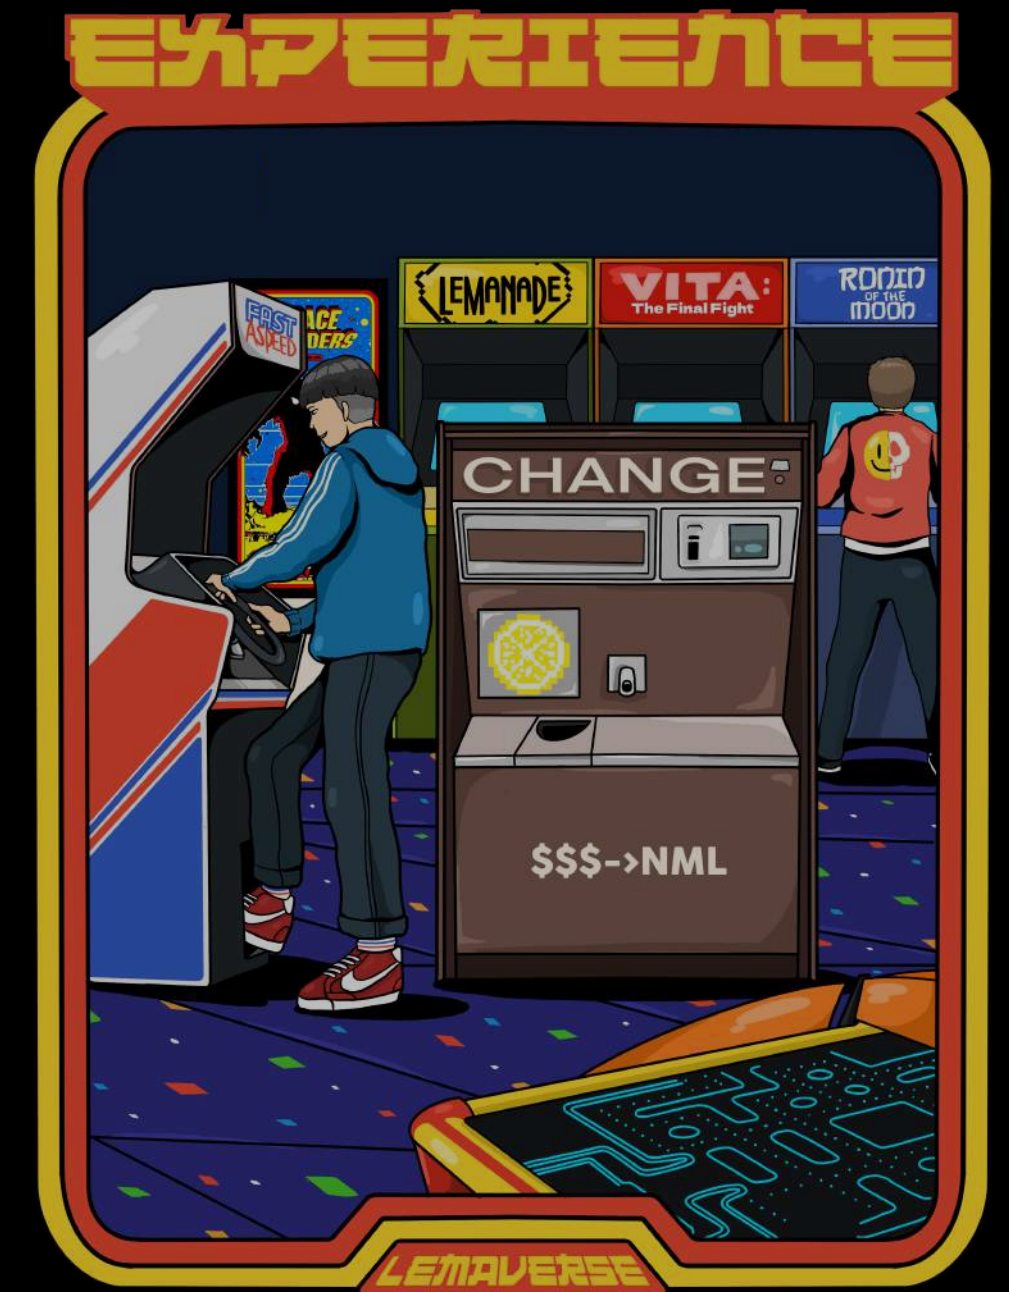

-25% -

-50% -

-75% -

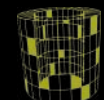

-100% -

the levels will reward users with specific nomel token added to other \$nml received from other in-game achievements.

don't expect to make a living or earn serious money from our enjoy to earn model. our focus is mainly making games fun, and not creating a play to earn scenario. in which players focus only on the on the "earn" part.

we believe if we increase the numbers of rewards it might affect gameplay and overall game experience. we simply want to reward players with nml that have completed the achievements as it is an indication to having fun in our games. theres absolutely nothing more to that.

LEGACY SPLICE

Thought to be lost in time and space, legacy splice refers to the original leman universe games presented between 1978 and 2013, created by mva games, entertainment, and other respected developers and publishers. The current leman legacy universe has been heavily inspired by the legacy splices discovered in the chronica lemanade.

Legacy splice are mini games considered to today's standards. The games are based on short experiences in classical form (8bit-16bit-32 bit- 64bit -etc) in which players can experience the ultimate leman legacy universe portrayed by the original creations. Although they are short games compared to today's standards, legacy splice stories are considered to be canonically accurate, and part of the official leman legacy lore.

"Legacy splice" stands as a remarkable homage to the golden age of gaming, presenting a collection of games inspired by the original retro classics that bridged screens between 1978 and 2013. This innovative creation seamlessly weaves together the pixelated magic of iconic titles from the Atari 2600, NES, and beyond, offering players a delightful trip down memory lane. From nostalgic side-scrolling adventures reminiscent of the early Mario Bros. era to pulse-pounding space shooters in the vein of Galaga, each game captures the essence of its respective era with painstaking attention to detail. Whether it's the thrill of pixel-perfect precision in a platformer or the adrenaline-pumping challenge of arcade-style shoot-em-ups, "Legacy Splice" promises an authentic and immersive experience that pays tribute to the pioneering days of gaming.

LEGACY RIPPLE:

Legacy ripple are non-canonical games that feature a collection of leman legacy characters and/or worlds, that means that these games and their material is not part of the official leman legacy lore. Legacy ripples can be single or multiplayer games that can exist in any gaming platform, or a physical platform (board game). An example of a legacy ripple game would be a trading card game with different characters from the universe competing against each other, or another example would be a fighting game that is unrelated to the canon lore.

Legacy ripple offer a captivating window into the past, rejuvenating the timeless charm of old games from the 80s, 90s, and early 2000's within the iconic leman legacy universe. These non-canonical games seamlessly blend the nostalgia of classic gaming with the beloved characters and worlds, offering fans a chance to explore a captivating fusion of eras beyond the official lore.

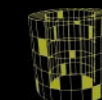

These inventive creations reimagine the leman legacy's iconic characters and settings in a way that pays homage to the wonders of the golden age of entertainment. They bring together a diverse array of legacy characters, inviting players to embark on adventures filled with legacy charm. These games stand as a testament to the enduring appeal of the leman legacy universe.

LEGACY RIPPLE

Legacy ripple comes in various forms, mirroring the diversity of the 80s and 90s and early 2000's entertainment landscape. Some may take the form of single-player experiences, allowing gamers to relive the bygone eras gaming magic as they venture into uncharted territories of this hybrid universe. Others emerge as multiplayer games, recreating the shared experiences that made couch co-op and arcade battles so memorable during those golden gaming decades. These games bridge generational gaps, inviting both older fans who fondly remember their 8-bit adventures and newer ones to engage in this delightful fusion of past and present.

Moreover, these inventive endeavors aren't limited to video games alone; they transcend platforms and media types. Legacy ripples can manifest as fighting games, inviting players to engage in brawls featuring beloved legacy characters. Alternatively, they can take the form of party games where fans compete in mini-games that capture the spirit of some of the beloved classic titles. Card games, board games, and even other forms of media like comics and animations also serve as canvases for these inventive expressions. In essence, legacy ripples celebrate the timeless joy of diversified entertainment, while extending the legacy of the leman universe far beyond its official canon, permeating various forms of media to delight fans across the spectrum of creative expression.

LEGACY EXPERIENCE:

Legacy experiences within the leman legacy universe represent a thrilling expansion of the rich narrative tapestry and intricate lore that fans have come to adore. These immersive games are meticulously crafted to offer players a profound and personal journey through the heart of the lemanverse, with a commitment to embracing modern gaming platforms, legacy experiences are destined for PC, consoles, smartphones, and even the immersive realms of virtual reality.

At the core of legacy experiences lies a deep-seated dedication to character development and storytelling. Each game places one or more characters at the forefront, thrusting them into the limelight as protagonists or antagonist. In doing so, these experiences peel back the layers of their intricate backstories, unveiling the pivotal events and experiences that have shaped their lives within the lemanverse. This intimate exploration serves to forge a powerful connection between players and the characters they've come to know and love.

However, legacy experiences are not solely focused on narrative; they strike a harmonious balance between storytelling and gameplay, with meticulous attention to game mechanics. These experiences ensure that players are not only emotionally invested but also actively engaged in the world of leman legacy, whether you're navigating complex puzzles, engaging in epic battles, or embarking on thrilling quests, the gameplay elements are designed to provide an enriching and immersive gaming experience.

In this ambitious endeavor to expand the lemanverse, legacy experiences breathe fresh life into the existing lore while introducing entirely new storylines and narratives. These additions are seamlessly woven into the fabric of the lemanverse, respecting the original source material while pushing the boundaries of what's possible. With each new legacy experience, players embark on an odyssey through uncharted territories of the lemanverse, discovering hitherto unseen corners of the universe and forging connections with previously unexplored characters.

The commitment to innovation and cutting-edge technology is palpable in the development of legacy experiences, whether players choose to delve into the lemanverse through VR headsets, embrace augmented reality, or opt for traditional gaming on PC, console, or mobile, the aim is clear: total immersion. These experiences aren't just games; they're gateways to fully inhabiting the captivating worlds of leman legacy.

Furthermore, legacy experiences serve as the connective tissue of the entire leman legacy project, acting as a focal point for the integration of other legacy categories like Splice and Ripple. This interconnectedness ensures a cohesive and all-encompassing experience for fans, where the boundaries between different forms of media blur, creating a holistic lemanverse experience.

As an exciting glimpse into the future of leman legacy, the announcement of the new hub legacy hall is a testament to the boundless potential of legacy experiences. Loosely inspired by the 1995 comic "Ripple Invasion" by the Wright brothers, this legacy hall invites players into a sprawling space hub brimming with entertainment options and bounties to undertake. It is a tantalizing taste of what's to come, promising to transport players deeper into the heart of the lemanverse than ever before.

In summary, legacy experiences are a bold and ambitious endeavor within the leman legacy project, enriching the lemanverse with immersive storytelling, captivating characters, and engaging gameplay. They are a bridge between the past and the future of this beloved universe, inviting players to embark on unforgettable journeys and explore the uncharted realms of the lemanverse in ways never before imagined.

ORIGINAL ROAD MAP

A combination mistake

In our initial launch white-paper, we presented a roadmap that included both anticipated plans and milestones. We acknowledge that this combination may have led to some misunderstandings. It was not our intention to confuse our valued community members, and we appreciate your feedback and patience.

In this revised edition, we have made a deliberate choice to concentrate solely on the plans relevant to the current phase. As for milestones, we have decided to keep them as an internal matter, allowing us to refine our strategies and ensure their successful execution. Rest assured, when the time is right, we will eagerly announce and invite you to celebrate these milestones with us.

We define this phase as a period of "growth," with our primary focus being on internal development. Over the past few months, we have witnessed notable growth in various aspects, including content, story, game development, and testing. This progress reflects our unwavering commitment to delivering the best possible experiences to the legacy legion.

However, it's important to note that we have not observed similar growth within our community itself. We deeply value your presence and support, and we understand that fostering a thriving and engaged community is crucial. Rest assured, we are actively working on strategies to improve this aspect in the near future. You do not deserve to be left in the dark, and we are dedicated to ensuring that you are fully informed and involved in our journey. Your feedback and involvement remain essential to our continued growth.

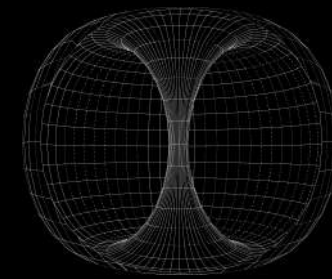

post creation & pre growth

As we are reaching the end of this phase, we enter the final realm of creation; as we welcome the arrival of the final element, the catalyst, the surprise "Legacy Hall". But before we proceed, we would like to give credit when credit is due, Legacy Legion we see you; we feel you; thank you for drinking the Lemanade...

We are progressing towards a challenging phase "Growth"- were the fruits of our findings will see the light of day, we are extremely excited to share with you our recent contributions to the Lemanverse.

We would also like to address our continued efforts to enhance communications throughout our social platforms. In the past year, we have dedicated the time to understand and organize the scope of this colossal multiiverse; leaving almost no time to reflect and communicate to the legacy legion.

Now since that's out of the way; BE SEATED, STARR ON, TAKE A BREATH, BRACE YOURSELF, EMBRACE THIS REALITY, AND DRINK THE LEMANADE...

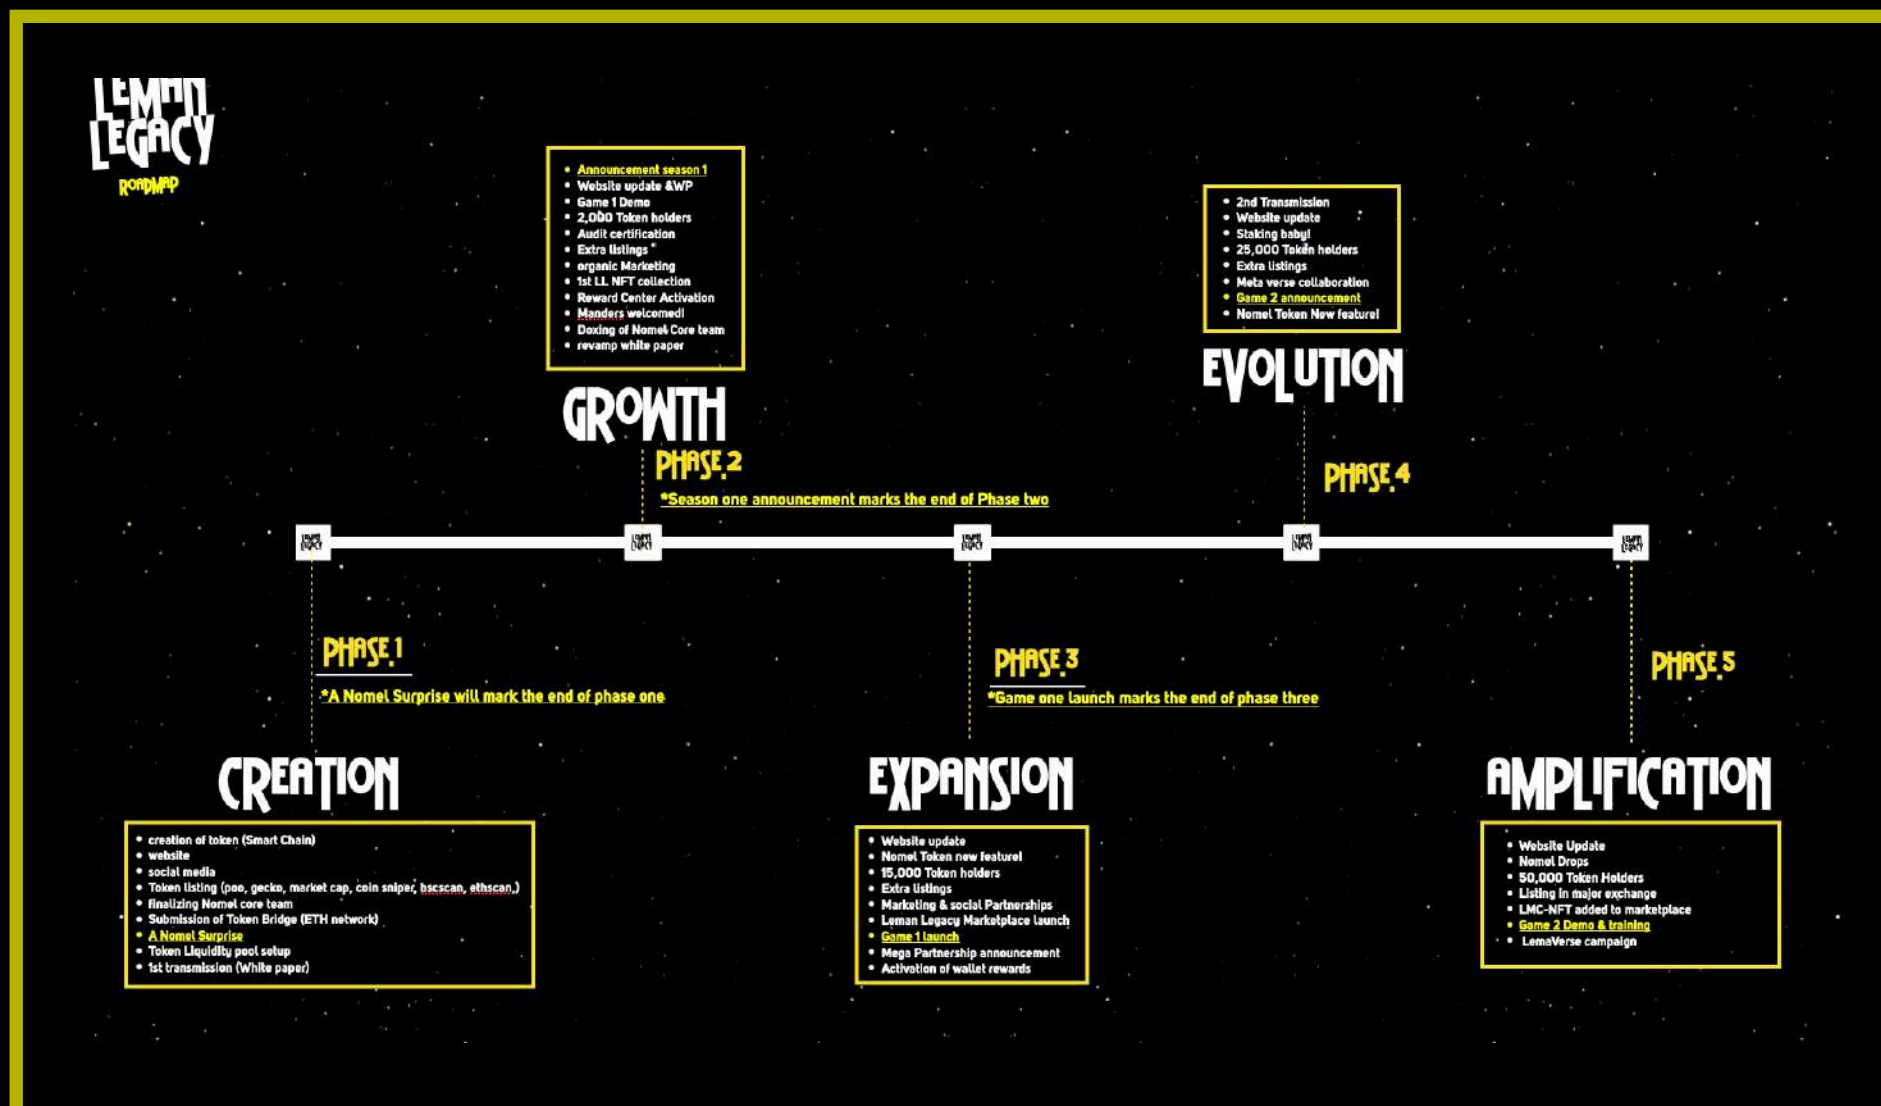

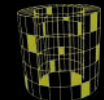

GROWTH

PHASE 2

3-6 MONTHS

- * second activation of the nomel universe collider apparatus
- * website update.
- * Light paper (here it is...)
- * game one beta release
- * game one website release
- * organic marketing
- * reward center testing for game one
- * rewards for manders (special avatars, march, NFT's)
- * addition social media platform (instagram)
- * web registration login dashboard (with game and wallet integration)
- * website simple market-place ...
- * create brand media content

LEGACY HALL

The first Leman Legacy experience. Step into a virtual world like no other—a VR online multiplayer hub that offers an immersive blend of adventure and entertainment. This hub is not just a game, it's an entire universe waiting to be explored. Here, you can delve into captivating stories, soar through space on thrilling missions, and uncover the mysteries of the ripple and the omega heart. But that's not all, the hub is brimming with activities that cater to your every interest, from arcades and mini-games to seasonal events, concerts, exhibitions, and so much more.

Embark on epic adventures: One of the core attractions of Legacy Hall is the opportunity to embark on thrilling adventures in deep space. Strap into your cosmic liquid Lemanade hand rocket and blast off into the cosmos to tackle daring missions and bounties; from department of Garbagio, archeology, or lost & found, there's a mission for you. Explore uncharted territories, face extraterrestrial challenges, and make choices that impact the unfolding story.

Discover alien worlds: As you traverse the cosmos, you'll stumble upon alien planets teeming with life and wonder. Each planet is a unique ecosystem, waiting to be explored. Dive deep into the lore of these worlds, unearth their secrets, and interact with their unique elements. Uncover the ancient mysteries that lie hidden beneath the surface. Each alien planet challenges the VR technology with diverse immersive gameplay.

Endless entertainment: Beyond the thrill of space adventures, the VR hub offers a plethora of entertainment options. Visit the arcade for classic and futuristic arcade games, challenge friends to mini-games, and immerse yourself in seasonal events that celebrate different seasons and holidays. Attend virtual concerts featuring your favorite artists from the HM radio, explore art exhibitions that push the boundaries of creativity, and participate in interactive events that bring the community together.

Tune into cosmic waves: HM radio channels: Tune into the HM radio network with various channels, including galactic news, intergalactic jams, space-talk shows, interstellar storytelling from the Lemaverse, relaxation and chill-out channels, all for a customized audio experience at Legacy Hall.

In this VR online multiplayer hub, the possibilities are limitless. Prepare to embark on thrilling adventures, explore alien worlds, and immerse yourself in a vibrant community of like-minded explorers and legends. The universe is vast, and your journey is just beginning.

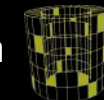

GAME TITLE: LEGACY HALL

GENRE: VR MULTIPLAYER HUB

RELEASE DATE: VERY VERY SOON

PLATFORM: VR (quest 2), PC

STAY TUNED!

HERE ARE THE LATEST UPDATES

HALLOWEEN RETURNS

31 . 10 . 2023

prepare for the pumpkin apocalypse: a night of evil delights!

beware, brave legends! The sinister season of Halloween is upon us, and this year, we're diving deep into the dark side of pumpkins.

Get ready for a wickedly twisted Halloween event at Legacy Hall that will leave you trembling with delight.

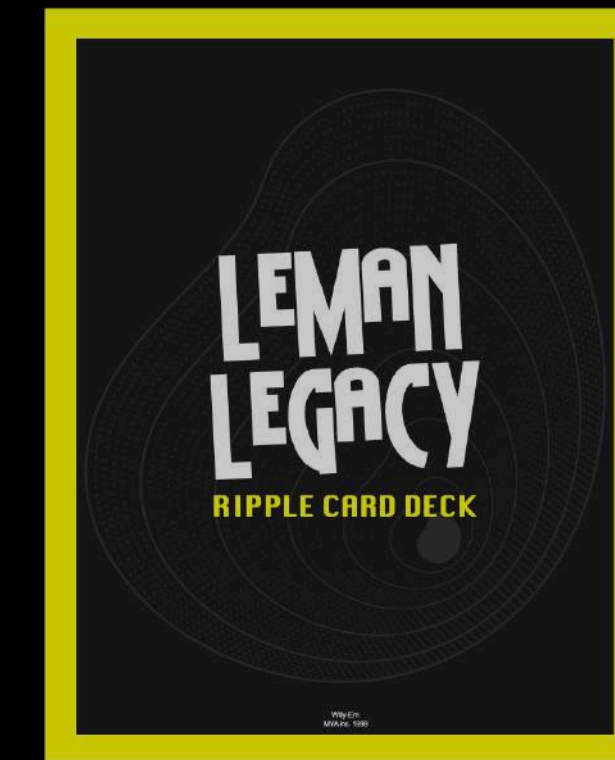

As an annual tradition, the Halloween event will reward players with legacy coins.

But that's just the beginning of our maleficent merry-making. More sinister details will descend upon you on October 25th, revealing the true extent of our pumpkin-infused horrors!

Mark your calendars and summon your fellow legends for a night of pure evil pumpkin revelry. This is one spine-chilling event you won't want to miss!

Stay tuned for more bone-chilling details on October 25th... if you dare to tread further into the pumpkin's dark embrace!

LEGACY RIPPLE CARDS ARE BACK!!!

The 1998 ripple card game launched as a promotional campaign to capture the hype around trading card games in the late 90's. The ripple card set contains multiple elements that can be optimized to enhance player experience (stats, rarity, ability, card numbers).

This year we are introducing the new Leman Legacy ripple trading card game. We are introducing updated card designs - with new card editions such as forged and quest cards. We have also categorized abilities for each card to enhance user experience.

Engage in the battlefield with your custom deck including your favorite cards and factions. We are currently working on a stand alone ripple card game that will be featured in Legacy Hall's Arcadia, as well as have its own website to function and in for players to enjoy.

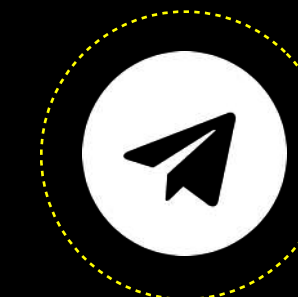

There is no launch date yet as we are currently involved in other legacy projects (Legacy Hall). Keep your eyes peeled to ripple cards updates.

Follow us on social media!

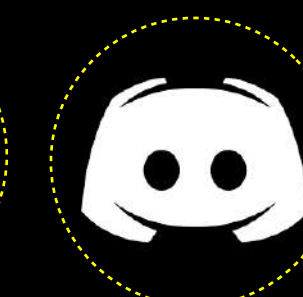

Stay connected with us and be part of our Legacy Legion by following us on telegram, twitter, and joining our discord server! While we may not always be posting updates, rest assured that our dedicated team is working around the clock on exciting legacy projects.

We may not be as active as other projects, but we are always a message or an email away!

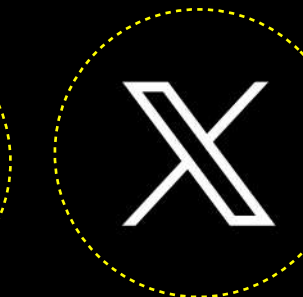

Don't miss out on the action across these platforms - click that follow and join button today and become an integral part of our community!
